// frontend
Next.js · React · Figma

// backend
.NET / C# · Spring Boot · Go
· Node.js · C++

// ai & data
TensorFlow · scikit-learn · Python · PostgreSQL · SQL

// tools
Docker · VS code

LANGUAGES

Thai native

English conversational

Nawat Pimolsathien

Computer Engineer · building AI things, shipping web apps

i Profile

A third-year Computer Engineering student with a strong foundation in programming and web development, built through coursework and personal projects. Internships sharpened my website and SQL skills; since then I've expanded into machine learning, data analytics, IoT, cloud, and cyber security, plus desktop software and add-in development in C# and .NET. I like building things that are genuinely useful to the people who use them.

▣ Experience

- **Software Engineer Intern NOW** AUG 2025 — PRESENT
Muang Thai Life Assurance
 - Building a sales-assistance chatbot to support agents & customers.
 - Delivering additional engineering projects across the team.
- **Software Developer (Intern / Part-time)** MAY 2025 — SEP 2025
Power Partner Co., Ltd.
 - Developed desktop software products end to end.
 - Delivered complete, client-facing projects.
- **Teaching Assistant** AUG 2024 — MAR 2026
Chulalongkorn Univ. — Logic · DSA · Frontend Dev
 - Guided students, answered questions, graded assignments.
 - Returned as Frontend Dev TA for a 2nd term (Mar 2026).
- **Software Engineer Intern** MAY 2024 — JUL 2024
NITMX Co., Ltd.
 - Built website projects with the team.
 - Delivered presentations & progress reports to mentors.

◎ Focus Areas

- AI language models & ML
- Full-stack web (Next.js)
- Desktop & add-ins (C#/.NET)
- Data analytics & databases
- Cloud & containers (Docker)
- 3D modelling in Blender
